

Core Competencies

Anthony Timbers LLC provides a variety of cybersecurity and digital services in the Washington, D.C. Metropolitan area and nationally, delivering quality services to the Federal and Commercial sectors.

Anthony Timbers LLC specializes in providing cybersecurity and digital services including:

- Penetration Testing
- Software Assurance
- Vulnerability/Risk Assessments
- Cybersecurity Policy Creation
- Patch Management
- 24x7 Managed Detection and Response (MDR)
- IT Security Planning/Implementation
- Managed Cybersecurity Services
- Website Design Services

Differentiators

Our customers recognize the value of our extraordinary cybersecurity services because we provide:

- Only certified cybersecurity/IT professionals with a minimum of a Security+
- Contractors with a variety of certifications, including: CISSP, OSCP, Security+, Network+, CCNA, CCNP, CISA, CEH, CHFI, AWS Cloud Practitioner, AWS Security Specialist
- Quality deliverables by utilizing a Quality Management System (QMS) based on ISO 9001 for every project we undertake
- Cloud-based security solutions that require minimal in person interaction while still maximizing the security measures that are implemented
- Employees that are cleared to work with the government
- Over 50+ years of combined Cybersecurity/IT experience.

Past Performance

Maricopa County, Arizona. Timeframe: December 2022 – Present. Providing Penetration testing services to the county and all of Arizona, to include Internal, External, Web Application, and other forms of penetration testing. General Cybersecurity Consulting is also provided under this contract. Contact: Brian Walsh, Sr. Procurement Officer, brian.walsh@maricopa.gov, 602-506-3243.

Massachusetts Office of the State Auditor. Timeframe: July 2022 – Present. Serving as Information Security Architect for the Massachusetts Office of the State Auditor. Our job includes conducting an initial cybersecurity assessment on the network as a whole and documenting compliance with applicable NIST/CIS controls. We are providing ongoing cybersecurity consulting for the next 12 months, which includes conducting risk assessments, architecting a more secure environment, building out a formalized security program, implementing security controls and tools, creating and formalizing security policies/procedures, assisting with migration to Office 365 cloud, securing the cloud O365 tenant, hardening network devices and servers, and making overall recommendations to improve their security posture. Contact: Chino Hoang, Program Manager, Chino.hoang@lancesoft.com, 678-865-7671.

San Joaquin County Sheriff Department. Timeframe: October 2021 – Present. Currently performing on Contract #CON0003469 implementing Microsoft's Zero Trust Strategy along with a number of CMMC/NIST 800-171 controls for the county's Sheriff department's Microsoft 365 tenant. Also conducted a cybersecurity assessment prior to implementation. Contact: Lokesh Sisodiya, County Information Security Officer, lsisodiya@sjgov.org.

Department of the Army & Harmonia Holdings Group (Prime). Subcontract #W56JSR-17-D-0004. Timeframe: January 2020-September 2020. Assessed the source code of various applications from the Army to make sure that they were free of vulnerabilities and make recommendations on how to fix discovered security threats. Contact: Todd Sternberg, Senior Technologist - Cyber Security, tsternberg@harmonia.com, 703-901-4587. Gary Perry, Software Assurance Project Manager, 443-861-9113, DSN 848, gary.w.perry.civ@mail.mil.

Our Vision

After years of experience working with the Federal Government, it is apparent that cybersecurity is not operating at its highest potential. For example, patches are released at a slow pace, security testing (i.e. penetration testing) is not administered adequately and priority is not given to maintaining security compliance. As a result, this leads to undetected attacks transpiring often. Our mission at Anthony Timbers LLC is to mobilize the industry by offering innovative and flexible solutions to these drawbacks. We strive to improve the security posture of the Federal Government to ensure the government and country are kept safe.
